

Form 7 Conduit Bodies | Pg. E12-E13

Form 7 Gray Iron Conduit Bodies provide slightly more cubic content than traditional malleable iron conduit bodies, allowing more room for conductor splicing. Form 7 Conduit Bodies are also more compact, and feature a flat-back for more stable installations. Threaded hubs are tapered and include integral bushings for easier wire pulls. Stamped Steel and Gray Iron Covers with integral gaskets are sold separate. Form 7 Covers feature captive wedgenuts that provide superior screwdriver seating and torque compared to traditional screws. Covers are easy to remove later, and interchangeable with Form 7 Conduit Bodies offered by most other brands.

Conduit Bodies

Form 8 Conduit Bodies | Pg. E14-E15

Form 8 Gray Iron Conduit Bodies feature longer bodies and larger wire-pull openings than Form 7 Bodies of the same trade size. This greater size accommodates heavier, larger gauge conductors. Form 8 Conduit Bodies also feature a flat-back design and tapered conduit hubs. Stamped Steel and Gray Iron Covers with integral gaskets are sold separate, and include stainless steel screws.
