

THE PERFECT SOLUTION FOR ROOF INSTALLATIONS

RCP Series

ORBIT'S ROOF COUPLING PLATE

Orbit's Roof Coupling Plates (RCP) provide a fast, efficient solution for the installation of conduit raceways through the roof of a building.

PATENT PENDING

THE PERFECT SOLUTION FOR ROOF INSTALLATIONS

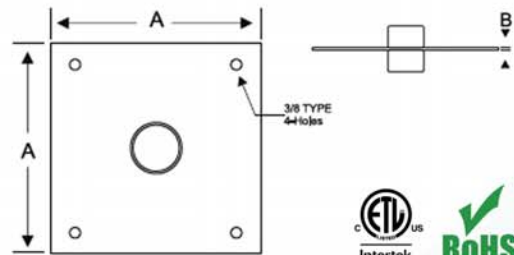

RCP-75

RCP-125

FEATURES

- » Allows for an easy transition of different conduit types
- » Suitable in any type of roof construction for new and old work applications
- » Allows conduit to run below the roof-line, reducing time spent de-rating conductors
- » Allows different conduit stub types to be prefabbed to the plate, reducing material handling and installation time
- » Eliminates the need for additional material and time spent providing bracing at roof
- » Helps maintain roof integrity by eliminating additional support brace penetrations
- » Can be used for through floor conduit penetrations inside buildings
