

Orbit Industries stocks a huge inventory of Emergency Lights and Exits on both coasts. Orbit LED Exit Signs range from economy-grade plastic signs to spec grade aluminum and edge-lit designs. Emergency Lights range from lightweight models to high-power PAR-style battery units. Available for most applications including multi-family, commercial, light industrial, and outdoor wet locations. All models are UL924 Listed for damp or wet locations. Battery diagnostic switches make these units easy to test per NFPA 101 requirements.

SUPER MICRO

The EL2SML is one of the most compact commercial LED Emergency Lights on the market. Measuring 7.86", it is roughly half the width of standard emergency light.

Two LED lamps can be hand-adjusted in a full range of motion. Suitable for wall or ceiling mounting. An additional lighting head can be powered by the EL2SML when Remote Capable (RC) battery option is specified. Available in white or black thermoplastic housing.

The EL1DOL is a General Purpose Outdoor LED Light and Emergency Light in one unit. Its low profile die-cast aluminum housing makes it a stylish replacement for security wallpacks. The EL1DOL is UL Wet Location listed. It produces 1,286 lumen output in AC mode; 350 lumen output in emergency mode. Dusk-to-dawn Photocell included.

Available in White, Bronze, Black and Nickel housing finish. Optional Battery Heater also available.

SHINE BRIGHT EVEN IN WET LOCATIONS

EST | Pg. J7

**INCREDIBLY THIN,
ONLY 0.86" WIDE**

The EST is one of the slimmest LED Exit Signs on the market. Measuring 0.86" deep, the EST is roughly half the depth of standard exit signs. Despite its size, the EST meets all the same requirements and listings as standard models. Its low profile and elegant lines complement upscale interior decor.

Includes two 'EXIT' faceplates for single or double-face application. A canopy is also included for ceiling or end mounting. Available in Red or Green LED and White or Black plastic housing finish.

The EESL2L satisfies outdoor exit sign and emergency lighting requirements with one unit. An impact-resistant polycarbonate shield protects the exit sign's face(s). A gasket around the lens creates a watertight seal, protecting electronics from corrosion. Two adjustable LED lamp heads provide optimal center-to-center spacing.

White housing, extra Faceplate included for field conversion to Double-Face. Options include Self Diagnostic Testing, Remote Capable battery, and Internal Battery Heater for cold weather.
