BENDABLE LOCKING TABS

A BARB and box assembly can be locked onto a BHA before arriving on the job site for quick adjustment in the field

PREASSEMBLED

-OR-

IN-FIELD

Attach to a 4" or 4-11/16" box with a single wafer head screw, forming a versatile box assembly

Box assemblies can be prefabricated onto a BHA before arriving to the job site, locking onto the hanger via its bendable tabs

For in-field installations, simply drop the box assembly onto a BHA before or after the hanger has been installed

Once the BHA is installed on studs, the box assembly can be adjusted along the hanger

Secure the assembly to the BHA with Tek screws, setting the box in place

Multiple box assemblies can be easily added! Up to 3 between 16" & 4 between 24" studs
