

INSTALLATION INSTRUCTIONS

WARNING: All work must be performed by qualified electrician. Luminaire must be installed and grounded in accordance with the National Electrical Code (NEC) and local codes. Failure to do so may result in serious injury and/or damage to the luminaire.

WARNING: Debris must be kept clear from top and interior of in-grade fixtures. Excessive heat could occur that may create a fire hazard and/or harm the fixtures components. Specific attention must be made to never install in-grade fixture in mulch, wood chips or other potentially ignitable materials. For installation in potentially ignitable materials, such as mulch and wood chips, installer must use an above-grade mounted fixtures. Failure to do so will void the warranty and may result in serious injury and/or damage the fixture and/or property.

SAFETY WARNING: Luminaire can become very hot depending on the lamp wattage used. Lens and housing around the lamp can become hot enough to blister hands. Particular care should be taken not to locate luminaires where small children can reach them if high wattage lamps are used.

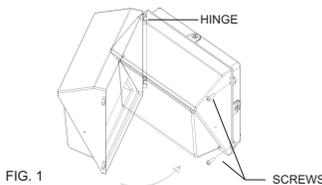

NOTE: Save these instructions for future reference.

PRECAUTION:

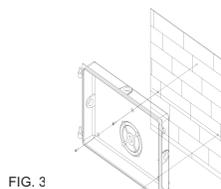

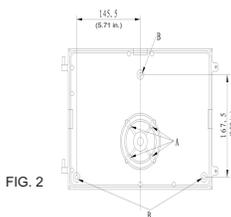

This luminaire is designed to be mounted on a junction box and to the building wall, which should be directly supported by the building structure.

MOUNTING DIRECTLY TO BUILDING WALL:

1. To prevent electrical shock, disconnect power from electrical supply before installation or service.
2. Remove the two screws of the fixture. (cover is hinge type). Fig 1.

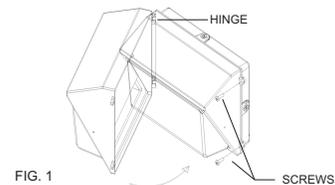

3. Drill three hole on the back of the fixture, (B mark) Fig. 2 and drill a hole on wall according to the dimensions below and the size of bolt/screw. Fig 3.

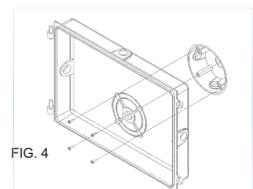

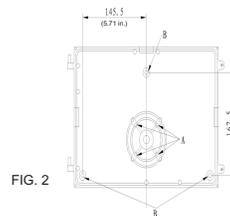

4. Attach luminaire leads to line observing polarity, black to black, white to white and green to ground using safety connectors.
5. Turn ON power and check for proper operation.

JUNCTION BOX MOUNTING:

1. To prevent electrical shock, disconnect power from electrical supply before installation or service.
2. Remove the two screws of the fixture. (cover is hinge type). Fig 1.

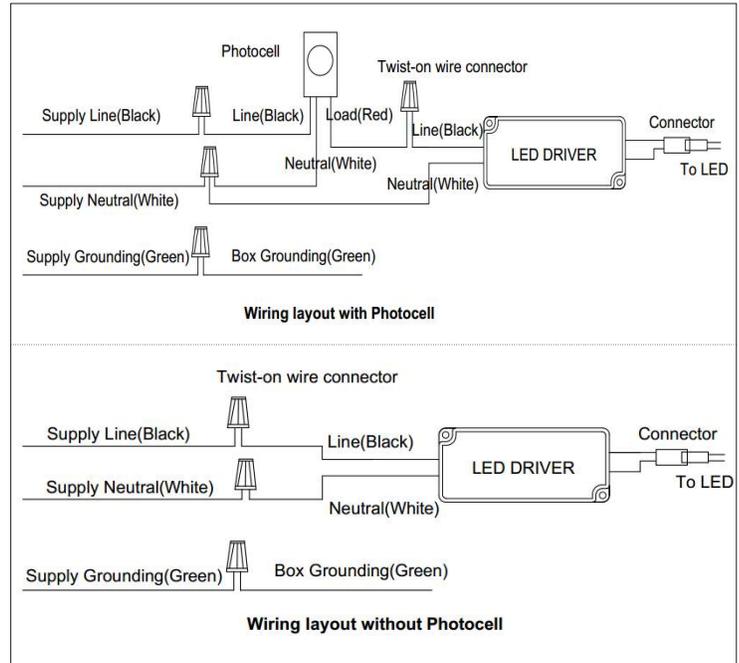

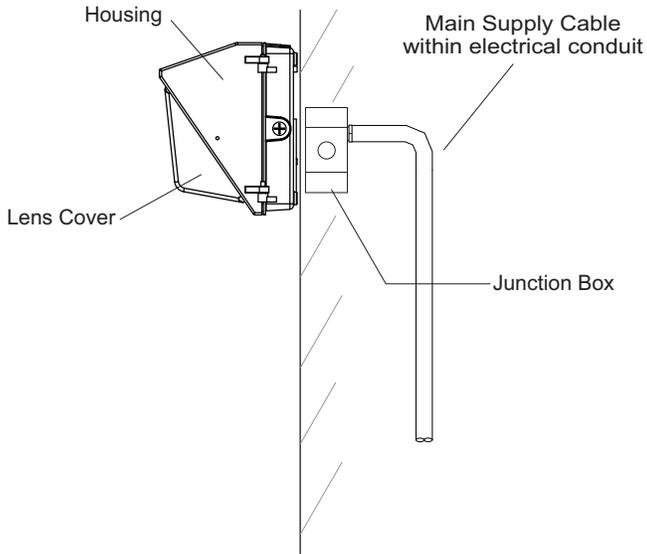

3. Drill four hole on the back of the fixture, (A mark) Fig. 2 and install the fixture directly to junction box. Fig 4.

4. Attach luminaire leads to line observing polarity, black to black, white to white and green to ground using safety connectors.
5. Turn ON power and check for proper operation.

INSTALLATION INSTRUCTIONS

NOTE: Illustrations are used for reference purposes only; actual fixture may differ on each luminaire.

NOTE: LED Driver rated voltage is 100-277V. If using with photocell check the rated voltage.
