

Catalog#: ZINC DIE-CAST EMT OFFSET CONNECTORS COMPRESSION TYPE
ZINC DIE-CAST EMT OFFSET CONNECTORS COMPRESSION TYPE

Category PIPE FITTING
Page [D9](#)

Description:

Orbit Industries' zinc die-cast offset set-screw connectors are used when electricians need to change the direction or slightly change the elevation of EMT conduits entering electrical boxes or enclosures. With Orbit Industries' labor saving design, electricians can save time consumed on offset conduit bending before connecting conduits to electrical junction boxes or enclosures.

Features:

- Zinc Die Cast
- Concrete-Tight
- Combo-Head Set Screw
- Suitable for applications above 600V

Certifications:

UL File Number:
