 FLEX CONNECTORS SET-SCREW TYPE**

Category PIPE FITTING
Page [D13](#)

Description:

Orbit Industries' set-screw connectors for conduit knockouts are used with flexible metal conduits that are made from "steel". They are not recommended for aluminum clad cables. Orbit Industries' set-screw type flexible metal conduit connectors have a quick combo-head screw that makes installation fast and labor saving. The screws tight biting design ensures that cables will not loosen when subject to vibrations.

Features:

- Zinc Die Cast
- Steel screw
- For Steel FLEX only

Certifications:
