

## Catalog#: CONDUIT BUSHINGS INSULATED CONDUIT BUSHINGS INSULATED

Category  
Page

PIPE FITTING  
[D75](#)

### Description:

Orbit Industries' threaded insulating bushings are used on threaded rigid or IMC conduits to prevent wires from being damaged by sharp edges on conduits. Orbit Industries' threaded insulating bushings easily screw on threaded conduits. You no longer need to worry about damaging wires during wire pulling because of their insulated throat design. It is safe and cost saving.

### Features:

- Zinc Die Cast
- Full Machine-Cut Internal Threads
- With Insulated Throat (Insulated color may vary)
- Meets Federal Spec. A-A-50553

### Certifications:

### UL File Number:
