— THE FIRST AND ONLY — ADJUSTABLE, OFF-THE SHELF CEILING SUPPORT BRACKET

Suspends NEMA enclosures, junction boxes, disconnects, J-hooks, and much more!

The CHAB Series delivers the industry's first off-the-shelf, adjustable overhead support solution for electrical installations. Suspends NEMA enclosures, junction boxes, disconnects, J-hooks, and much more—replacing traditional strut systems with a faster, safer, and cost-effective alternative.

- » Telescoping models (21"–36" and 33"–60") fit a wide range of ceiling spans.
- » Heavy-duty 12-gauge steel, zinc finish, supports up to 110 lbs.
- » Bolt-in design with pre-drilled holes—no cutting, bending, or welding required.

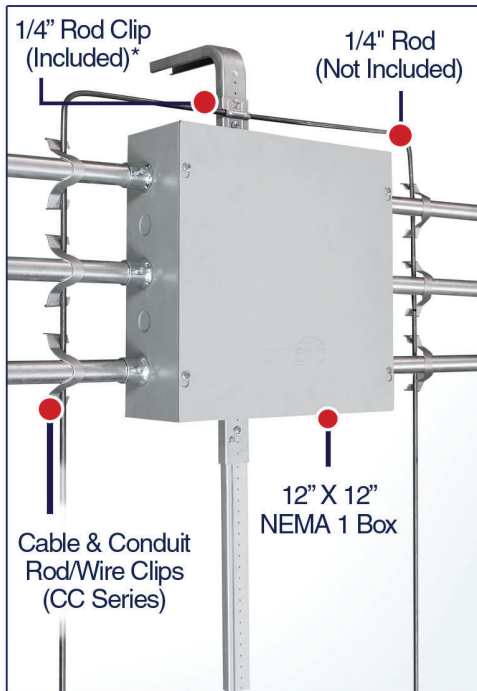

**CHAB-36 Shown Installed
with Disconnect Switch**

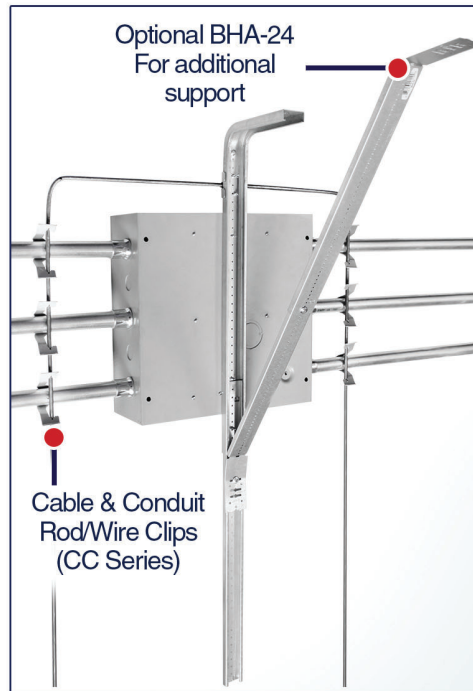

CEILING HANGING ADJUSTABLE BRACKETS

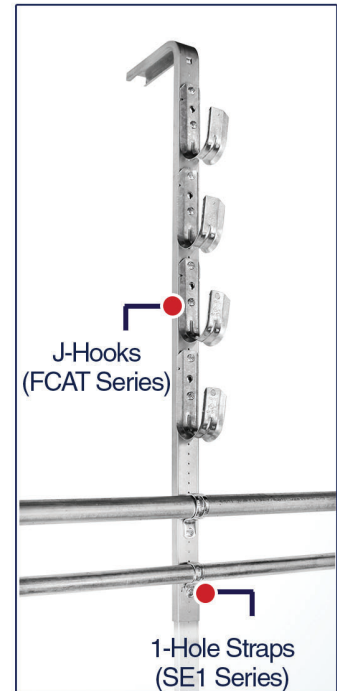

VERSATILE design supports power, low-voltage, fire life safety & cable management—perfect for open or closed ceilings.
