SOLUTION TO SECURE
Fixtures From Rotating

The first of its kind, the Conduit Locking Connector is designed to secure fixture installations and prevent the rotation of outlet boxes. Holes are also included for seismic wiring connections offering protection against seismic disturbances.

PATENT PENDING
CONDUIT LOCKING CONNECTOR
WITH SEISMIC WIRE HOLES

SET-SCREW
- Secure installation of conduit

LOCKNUT INCLUDED

HOOKS
- Prevents rotation

WIRING
- Added stability against seismic disturbances

FEATURES
- Fits 4", 4-11/16" and 4O junction boxes as well as Orbit’s patented EALB
- Available for 1/2” and 3/4” threaded conduits.
- Hooks prevent rotation of fixtures such as security cameras and emergency lighting
- Holes allow for use of seismic wiring for added protection against seismic disturbances
- Includes set-screw and locknut for secure conduit installations

INSTALLATION
1. Fasten CLCSL to threaded conduit
2. Tighten set-screw to secure conduit
3. Using center KO, mount to box using hooks on CLCSL
4. Secure conduit to box using locknut
5. Mount seismic wires to surroundings and tie to holes of CLCSL
