

SPECIFICATION & FEATURES

DESCRIPTION:

Orbit Industries' 2-3/4" Gangable Switch Boxes are used in the installation of switches. Models include a pre-assembled 10-32 ground screw and a solid #12AWG 7" Pigtail for ground applications. The 2-Gang gangable switch boxes can be expanded to multigangs by adding one or more GMB-1-NE units to the non-bracketed side. Orbit Industries' selection includes a variety of gangable switch boxes with non-metallic cable clamps, metal clad cable clamps, and old work tigergrrips. The wide tigergrip design is a non-gangable wide old-work switch box for easy installation of GFCI or other large devices. Use with a Midi or Oversized switch plate.

CERTIFICATION:

UL file E227970, conforms to UL514A.
